EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James J. Mullen, III, Ph.D. on August 30, 2007.

2. The application has been amended as follows:

- The article "A" was deleted from line 1 of claims 11, 14 and 59 and replaced with the recitation --An isolated--.

- The term --isolated-- was inserted between "The" and "polynucleotide" on line 1 of claim 60.

- Claims 61 and 62 were cancelled.

3. The following is an examiner's statement of reasons for allowance: The 102(e) rejection was withdrawn because sequence 565 from U.S. Patent Application Publication number 2006/0003323 (filed June 3, 2003) contained additional nucleic acids not included in Applicants' SEQ ID NO: 8. The reason for withdrawal of the said rejection was not based on Applicants' arguments submitted July 10, 2007, which cited differences in non-claimed polypeptides.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
